Agnes presents the work of Susan Hensel

**First Sight** is a sculptural, spiritual, and ecological response to a fragment of conversation overheard in a cappuccino shop. The speaker reported that she felt compelled to give a substantial amount of money to a man. How would you respond to a request for money? Under what circumstances would you agree?

Recognized as a leader in the field of Book Arts, Hensel is revered for her thought provoking and sometimes challenging work. Concerned with communicating intimately with the viewer, Hensel never strays from the course. This is what makes her a force to be reckoned with, a presence rarely seen in the realm of Book Arts.
